Re: NOTICE OF EX PARTE PRESENTATION
WT Docket No. 10-4

Dear Ms. Dortch:

On May 24, 2010, Joe Banos and Jonathon Bacon of Wilson Electronics, Inc. ("Wilson"), Matt Salmon of Policy Impact Communications, and Matt Waldrip of Action First met with John Giusti, Chief of Staff and Legal Advisor for Wireless, Public Safety and International for Commissioner Michael Copps. The purpose of the meeting was to discuss Wilson's proposal that the Commission adopt heightened standards for the certification of signal boosters for subscriber use on wireless telecommunications service networks.

The parties discussed Wilson, the capabilities of its signal boosters, its experience marketing its equipment in Canada, and other matters addressed in Wilson's petition for rulemaking and its reply comments in WT Docket No. 10-4. Wilson's signal boosters were described as "customer satisfaction, customer retention" tools for wireless carriers that are of vital importance to Rural America. Mr. Giusti was informed that wireless networks would be protected from interference caused by the operation of signal boosters if the Commission adopted the equipment certification standards proposed by Wilson. He was also advised of the substantial Congressional and public support for the continued use of signal boosters by subscribers to ensure reliable wireless service.

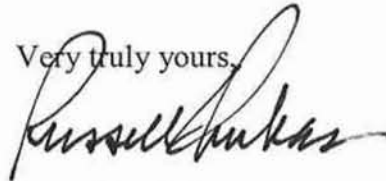

The Wilson representatives stressed the need for a dialogue between wireless carriers and signal booster manufacturers, with the aim of reaching an agreement on equipment certification standards that will ensure that wireless subscribers have access to signal boosters that will not harm wireless network operations. They also argued that the Commission's *Carterfone* principle

Ms. Marlene Dortch

applies to the wireless telecommunications market and gives wireless subscribers the right to use signal boosters that do not harm wireless networks.

Mr. Giusti was given the attached handouts. A copy of this letter is being filed in WT Docket No. 10-4 via ECFS.

Very truly yours,

A handwritten signature in black ink, appearing to read "Russell D. Lukas". The signature is fluid and cursive, with a large initial "R" and a long, sweeping underline.

Russell D. Lukas
